- About Oklahoma Environmental Services
 - Fully equipped environmental consulting firm that provides a complete range of environmental services.
 - Founded in 2002.
 - Offices in OKC and Tulsa.
 - Specializing in Soil and Groundwater Remediation, Environmental Assessments and UST Removals.
- OES is the leading provider of environmental services for the Oklahoma Corporate Commission and ODEQ.
- Work includes EPA superfund sites, Department of Defense and many of the landmark redevelopment sites in OKC.
- OES helps companies fulfil their environmental stewardship commitments.

- Services
 - Environmental Consulting
 - UST & AST Tank Removal & Excavation
 - Monitoring Well Drilling, Sampling & Plugging
 - Soil & Groundwater Testing, Monitoring & Remediation
 - Mobile Dual Phase Vacuum Extraction
 - Real Estate Phase I & II Assessments
 - Federal and State Government Contracting
 - Upstream and Downstream Oil & Gas Services
 - Remediation System Operation & Maintenance
 - SPCC & Stormwater Plans
 - Statistical Inventory Reconciliation (SIR)

- Focus on growing OES
 - Grow market share of core services with OCC and ODEQ.
 - Expand services offerings to include Per/Polyfluoroalkyl Substances (PFAS), referred as “Forever Chemicals” and “Microplastics”.
 - Strategic acquisitions.
 - Increase environmental work in Oil & Gas, including orphaned and abandon wells.

- Environmental opportunities with orphaned and abandon wells
 - 16,000 orphaned wells in Oklahoma emitting methane emissions that need plugged.
 - OES partners on pilot P&A project to assess P&A costs and requirements; scalability; and carbon credit registration process and market.

Thank you
